Dear Grant Holder:

On May 16, 2019, the City of Henderson (City) applied for a right-of-way (ROW) for a new paved roadway, trails on both sides of the road, drainage facilities where the roadway crosses substantial natural drainage ways and municipal utilities (water and sewer) within the proposed project.

The City proposes to construct and maintain a new north-south roadway between the Senate Road and Larson Lane. This grant will allow construction and operation of a new roadway including trail, drainage facilities and municipal utilities. The purpose of the Project is to allow the City to expand its capabilities to meet future development needs in the West Henderson Planning Area. The proposed Project will connect to existing and proposed facilities on private and public land.

A map describing the ROW area is attached for your review. Additional information is contained in casefile N-98037, which is available at the Bureau of Land Management (BLM), Las Vegas Field Office, located at the address above. The ROW are located on the following lands that are managed by the BLM:
